PROFESSIONAL SUMMARY

Frontend Developer **with 2+ years of experience** building high-performance, responsive web applications using React and Next.js. Passionate about UI/UX design, SEO, and optimizing user experiences across devices. Experienced working with international clients to deliver production-ready, scalable interfaces.

EXPERIENCE

Front-End Developer @ 4TEENGAMES (USA - TR)

📅 Feb 2025 - Present

Next.js TypeScript JavaScript i18n TailwindCSS Zod React-form-hook
RESTful API

- Rebuilt the company's main game website from a legacy HTML + Bootstrap setup to a modern **Next.js + TailwindCSS** stack.
- Designed and implemented a new homepage layout with **modular, reusable components** and animation effects using Framer Motion.
- Achieved **SEO top 1 ranking** for game-related keywords, significantly increasing organic traffic and visibility.
- Boosted page load speed by **50%** through image optimization, code-splitting, and static rendering.
- Developed a **mobile-first** responsive UI optimized for gaming audiences across devices.
- Collaborated closely with design and backend teams via GitHub, Discord for efficient integration and code quality.
- Documented reusable components and contributed to internal UI standards for long-term scalability.

Frontend Developer, UI/UX Designer @ BUEMElektrik (Turkey)

📅 May 2025 - July 2025

React.js Next.js TypeScript TailwindCSS Image Optimization SEO

- Designed and developed the **main landing page** for BUEM Elektrik, focusing on **responsive UX and mobile-first performance**.
- Built **reusable UI components** with Next.js + TailwindCSS to ensure design consistency and fast loading.
- Implemented **SEO strategy** that ranked the site on Google's top results for the brand keyword "BUEM Elektrik".
- Enhanced performance via **lazy loading**, image compression, and code splitting for smooth rendering.
- Collaborated directly with the client to refine **UI flow and brand identity** across devices.
